

K-LOVE is the best radio station in our community!!!!

I am greatly blessed when listening to this station throughout the day and night. Our local community needs to have this positive and encouraging radio station on the air. It would be devastating if it were replaced by an LPFM broadcaster providing other programming. The other programs in our community can be offending in their comments and music. It is in the public's best interest to let K-LOVE continue providing their services which affect the lives of everyone who listen. They have saved thousands of people by bringing them to the Lord our Savior.
